Planting Instructions: Plant in full sun, in fertile, well drained soil.  
north star

### **“North Star” Cherry Tree**

Common Name: Prunus Cerasus “North Star”

Description: A heavy producer. The number of deliciously tart cherries from one of these trees will amaze you. The fruit is perfect for any number of dessert recipes.

Flower Colour: White

Height: 10 ft.

Self Pollinating: Yes

Blooming Season: Early Spring

Harvest: Mid June

Years to Fruit: 3-5yrs.

Freestone: Yes

Planting Instructions: Plant in full sun, in fertile, well drained soil.

### **“Stella” Cherry dwarf Tree**

Latin Name: Stella Cherry Tree Dwarf

Description: Produces a tasty bounty of big, heart-shaped, reddish-black cherries. Fruit resists splitting

Flower Colour: White

Height: 10-16 ft.

Self Pollinating: Yes

Blooming Season: Late Spring

Harvesting: Mid June

Years to Fruit: 3-5yrs.

Freestone: semi-freestone

Planting Instructions: Plant in full sun, in fertile, well drained soil.

### **“Sweetheart” Cherry dwarf Tree**

Latin Name: Prunus Avium “Sweetheart”

Description: Large bright red cherry with excellent flavor. Vigorous, productive and crack resistant. The interior flesh is meaty and firm, but with a delicious sweet flavor that will make your taste buds water. The slightest hint of acidic undertone is just enough to provide the perfect amount of bite to this unique cherry. It even remains crisp long after picked.

Flower Colour: White

Height: 8-12 ft.

Self Pollinating: Yes

Blooming Season: Late Spring

Harvest: Late July

Years to Fruit: 3-5yrs

Freestone: semi-freestone

Planting Instructions: Plant in full sun, in fertile, well drained soil.

### **“Van” Cherry dwarf Tree**

Latin Name: Prunus Avium “Van”

Description: This older variety is still popular. Fruit is firmer and slightly smaller than Bing and ripens about the same time. Heavy bearing tree and good pollinizer.

Flower Colour: white

Height: 8-10ft.

Self Pollinating: No, use any other variety of sweet cherry to cross pollinate.

Blooming Season: Late April

Harvest: June

Years to Fruit: 3-5yrs.

Freestone: semi-freestone

Planting Instructions: Plant in full sun, in fertile, well drained soil.
