Red Star  
10 pots/flat - 4" round picture pot

Premium Annuals • Proven Performers • Premium Annuals • Proven Performers • Premium Annual

**Planting Guide**

- Dig hole 2x width and 1-2x deep
- Add plant even with soil level
- Fill with firm soil in inner of pot
- Water well
- Add 2-3 inch layer of mulch

**Basic Garden Prep & Care Tips**

**Soil**  
Ideally, soil should be 2" of top soil and 1" of compost. For plants, use a good quality potting mix.

**Watering**  
Water a new plant every 2-3 days for a week. After that, water once a week. If the soil is dry, water more often. If the soil is wet, water less often.

**Light**  
Most plants need 6-8 hours of light a day. If you have a sunny spot, put your plants there. If you have a shady spot, put your plants there.

**Temperature**  
Most plants like a temperature of 60-70°F. If it's too hot, put your plants in a shady spot. If it's too cold, put your plants in a sunny spot.

**Fertilizing**  
Fertilize your plants every 2-3 weeks. Use a balanced fertilizer. If you have a lot of plants, use a liquid fertilizer.
